

Disgusting Digestion!

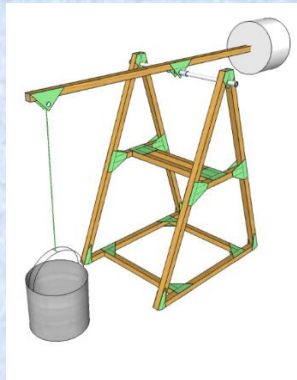

Our main topic for this half term will be teeth!

In English, we will link our learning to the wonderful text 'Demon Dentist' by David Walliams. A variety of writing genres will be explored alongside the story, character descriptions, predictions and biographies.

In Science, we will be learning about the different types of teeth and their functions, as well as the digestive system! We will be working scientifically by comparing the teeth of carnivores and herbivores, finding out what damages teeth and how to look after them. We will carry out some exciting investigations.

In D&T lessons, the children will have the opportunity to create an Egyptian Shaduf. They will plan their design and then create a prototype using straws. They will evaluate this and then build their Shaduf using wood. The children will then test their creations.

In computing lessons this half term, the children will be learning how to code. Alongside this topic, the children will be familiarising themselves with google classroom.

Key Maths Learning

- Addition & Subtraction
- Multiplying and Dividing by 10 and 100
- 3,4 and 6 times table and division facts
- Perimeter & Area

P.E lessons will be badminton and dance.

Please make sure your child is dressed in their PE kit on Mondays and Thursdays.
