

Welcome to being a burgundy!

Wearing a burgundy jumper comes with many roles and responsibilities. We expect our burgundies to wear their jumper with pride and be a fantastic role model to the rest of the school.

History

Our topic for Autumn term is the Ancient Mayans. The children will have the opportunity to share any facts they already know and they will devise questions about what they would like to find out. Furthermore, the children will use a range of sources to answer their questions and find out more about their culture and lifestyle.

SCIENCE

Our Science Topic this half term is based on 'Animals and Humans'. In this unit, the children will learn about the human circulatory system. The children will describe the functions of the heart, blood vessels and blood (including pulse and clotting). Later in the unit the children will begin to recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function.

Maths

In maths lessons, we will be focusing on consolidating our written methods for addition, subtraction, multiplication and division.

PE

P.E lessons will be basketball and Cross Country.

We will no longer be using the changing rooms for PE. Please make sure your child is wearing their school PE kit on the appropriate days.

Our PE days are on Wednesday and Friday.

Computing

This half term, the children will be developing their coding skills further. They will be learning to design a game involving a timer and a player's score.
